The current living style has caused many men to suffer from erectile dysfunction. As a man gets older this problem becomes too predominant. With this problem, men are not able to maintain their erection during sex, which often ends with lots of frustration.

Nowadays, several **erection pills in the UK** are available and you can also buy them online by visiting SITE.COM, however, before taking the pill you must also consult a doctor.

Among the various **ED tabs in the UK** people most commonly prefer to use either Viagra pills or Cialis. Viagra pills have become very popular ever since they were discovered. Initially, the cost of Viagra pills were very high too, until many other pills were also developed.

All **erectile dysfunction tablets in the UK** that are available are a similar class of drugs which is known as phosphodiesterase type 5 inhibitors, or also known as PDE-5. The generic name of Viagra is sildenafil while the

generic name of Cialis is tadalafil.

Researchers claim that all such PDE-5 inhibitors are quite similar, so far as their safety and efficacy are concerned, but there are little differences as regards the following:

- Their timings to consume
- How long their impact will last
- The impact of various diets on how well these drugs are absorbed
- Few minor side-effects.

Because of the above factors, a man chooses to take a particular drug to treat his erectile dysfunction problem. They play a very significant role in determining the kind of pill. A man may even consider asking their sexual partner about how spontaneous the erections are during their sexual activity. There is also the cost to think about.

With **generic Viagra in the UK**, the following are the main observations:

1. Effects were realized after 30 – 45 minutes.
2. Successful erections remain for 2 – 3 hours
3. Men below 60 years should start from a dose of 50mg and can go up to 100mg, but people after 60 may start from 25 mg.
4. Should preferably be taken on an empty stomach.
5. Few side effects are:

- Abnormal vision
- Back pain
- Flushing
- Dizziness
- Headache
- Nausea
- Muscle pain
- Rash
- Stuffy nose
- Upset stomach
- Rarely stroke and irregular heartbeat.

The observations about **generic Cialis in UK** are as follows:

1. Starts showing effects within 30 – 45 minutes.
2. Successful erections can be maintained until 36 hours after consumption
3. Available in 2 forms:

- The daily pill remains effective in between the doses but it can take 4 – 5 days to work.
- The “weekender” Cialis with work within 30 minutes and remains for 36 hours maximum.

1. The daily pills are available in tablets of 2.5mg and 5mg. The “weekender” pills are available in 5/10/20mg strengths.
2. You can take either with or without taking food.
3. Common side-effects are:

- Headache
- Indigestion
- Back pain
- Facial flushing
- Dizziness
- Muscle aches
- Nasal congestion;

Remember, both of these erection pills may cause a little drop in your blood pressure (BP) and for most people, it may not be an issue. However, for those who are taking blood pressure medicine, for them, it is not advisable to take these erection pills without a doctor's advice.

What is the effectiveness of using Viagra, Cialis and other ED pills?

Nowadays, many men and women experience problems of a sexual nature. And this directly affects the mental state and health. Therefore, they need to be addressed immediately. In this matter, special drugs that can enhance arousal and prolong the pleasure of intimacy provide tangible help. Moreover, such funds are designed for both men (increase erection) and women (relax muscles and increase sensitivity). But what is the effectiveness of using Viagra and similar generics and is it worth it to use?

Viagra and various analogues (generics) like Cenforce 25, Super Vilitra, Super Vidalista for sale, Filtra Professional and others with proper use give an effect. This is an indisputable fact. More than once studies have been conducted by specialists in this field, during which the effect of Viagra and the degree of its effectiveness were studied. The results showed that this drug and its analogues give a positive effect that helps to improve the quality of sexual life. In addition, many drugs also improved the hormonal balance of the body, due to the violation of which many problems of an intimate nature could manifest themselves.

However, it should be noted that the effectiveness of Viagra, Vilitra 60 mg, Cenforce D for sale, Vidalista 40 will be noticeable only when the drug is used in strictly defined doses. Exceeding them can lead to a deterioration in the state of the body and various side effects. Therefore, you should first consult your doctor regarding the use of Viagra and generics.

Also note that a lot depends on the quality of the drug. So, only proven funds should be purchased in well-established pharmacies. Unknown drugs with dubious contents can cause serious harm to the body. And because of this, you will not feel the full effectiveness of their application.
